No Exposure Certification Form (NOEC)

For Exclusion from Permitting Requirements of the Kansas Water Pollution Control General Permit
For Stormwater Runoff from Industrial Activity
Under the National Pollutant Discharge Elimination System

Submission of this No Exposure Certification (NOEC) form constitutes a request on behalf of the party identified in Section I for exclusion from the applicable requirements under the Kansas Water Pollution Control general permit, or KDHE authorized successors, issued for stormwater runoff from industrial activity in the State of Kansas. If a facility is covered under the definition of stormwater discharge associated with industrial activity, but has taken steps to ensure that a condition of "no exposure" exists at the industrial facility, NPDES permit coverage is not required. No exposure means all industrial materials and activities are protected by a storm resistant shelter to prevent exposure to rain, snow, snowmelt, and/or runoff (see instructions for a discussion of materials and activities not required to be protected for this exclusion). **Completion of this NOEC does not automatically exclude the facility from applicable requirements of the general NPDES permit. The facility is excluded from coverage when the Kansas Department of Health and Environment (KDHE) authorizes the No Exposure Certification Form (NOEC). A signed and dated copy of the authorized NOEC will be provided to the owner or operator.** The exclusion becomes valid when KDHE issues a written authorization of the No Exposure Certification. ONLY COMPLETE NOEC FORMS WILL BE PROCESSED. KDHE WILL NOTIFY PERSONS WHOSE NOEC FORMS ARE INCOMPLETE, DEFICIENT, OR DENIED.

IV. NOEC CERTIFICATIONS

I, the undersigned, certify that I have read and understand the requirements and conditions of the NPDES general permit for Stormwater Discharges from Industrial Activity applicable to "No Exposure" exclusions;

To the best of my knowledge, the industrial activity qualifies for a no exposure certification exclusion in accordance with the applicable requirements and conditions of the NPDES general permit for Stormwater Discharges from Industrial Activity.

I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gather and evaluate the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations.

I will re-certify the "No Exposure" status of the facility at least once every five (5) years. Should changes in operation result in the potential for stormwater runoff associated with industrial activity, I will immediately notify KDHE and submit an NOI or other request for authorization for coverage, as required, for coverage under an NPDES permit for stormwater runoff from industrial activity.
